My daughter, who is 3 years old and pink-princess obsessed loves Peppa Pig. I'm grateful for Peppa! These books are so cute and appropriate for toddlers. I've read my daughter several Peppa books, and like the ones before this one does not disappoint. The authors manage a book that has a simple story. My child finds it silly and funny. I'm impressed they manage to include simple science facts that can be expanded at home in every book. Here, for example, they talk about leaves falling in fall. And instead of jumping in muddy puddles you can jump and crunch up leaves. Well! At least for me, this was a reminder that we should go outside and crunch some leaves! Jump on them, stomp on them, break them in your hands. It was a suggestion of a free and appropriate activity for small children. While crunching leaves we can talk about the seasons, appropriate clothing, why the trees lose their leaves...I only wish they had an anthology: Peppa adventures - you know all the stories in one big book. I'm very pleased.

My kids love Peppa Pig stories and cartoons. We have all their books and this one is the latest addition to the series. If your little ones like Peppa Pig, then I am sure they will like this little story book as well. It tells about an outing of the Peppa and her family on a windy fall day. They go out for a picnic next to a duck pond and funny things happen as usual. My kids laughed a lot when Daddy pig accidentally fell into the duck pond while trying to rescue the ball which flew into the pond and also when mommy pig shook the tree which caused a pile of leaves to land on her. I can say it has more sense of humor than most other Peppa books and thanks to the big pictures and the easy to follow story, kids really enjoyed it

Like all things "Peppa Pig", my 16 month old granddaughter loves these books. She looks at the pictures and points to her favorite characters and enjoys having them read to her over and over. The book was shipped quickly and was priced right. It's difficult to find "Peppa Pig" items in USA stores because it seems that everything Peppa is made in England and you have to find them online. I like these books so much I bought 10 different books, all published by Scholastic. You can't beat the prices here on for these books.

How can you NOT love Peppa the Pig? My SIL who is a few fries short of a happy meal doesn't like Peppa and I think that's because she's, well, not "right" in the head. This show has appeal to adults and children alike. It's great for a boy or a girl. It's sweet and uncomplicated and just plain funny. Both my girls, ages 2 and 6, love Peppa and George. This is a great book for fall -- all the books are wonderful and most follow the show so they're accessible for the kids.

My 4 yr. old son, 2 1/2 yr. old daughter and 14mth old nephew love Peppa Pig so how could i go wrong? I love encouraging my children to read every night and we have almost the entire collection of Peppa Pig story books. My old wish was that the books didn't have only 1 or 2 stories, it would be easier to get a book encasing all the stories. Other than that, Peppa Pig is a lovely story or a little pig with her family and friends. Highly recommend!

My 3-year-old loves this series (even though I can't stand it). She walks around holding the book and I don't have to worry about her destroying it because the pages are fairly sturdy and it is cheap to replace. Encourages reading.

Anything Peppa Pig is a big hit in our house. This adorable story talks about one of the best pastimes of Fall-jumping in leaves! Instead of muddy puddles, Peppa learns that it can be just as fun to jump in leaves!

My kids love Peppa Pig and her family and friends! I gave them this book a few weeks ago, and had to read it as part of their bed time books every night. I also ordered a few more of this series, Easter Egg Hunt, Bedtime Story, Ballet Class, Swimming, Dentist -- they are all great and cute.
