## **Customer Reviews**

I saw this book while waiting in the office of my 15-month-old daughter's pediatrician this morning. She loved the familiar lyrics as well as the illustrations. She favored the picture of the bus driver pointing as he says "move on back", but the pictures are so detailed that I'm sure she'll soon find another favorite. Plus, the book is small and sturdy which made it easy for her little hands to turn the pages. She asked me to read/sing it to her so many times in a row that I lost count. I imagine that, if the doctor hadn't finally shown up, I might still be reading this book to her! So, I am getting her a copy of her own right now. I'm sure she'll be thrilled with it!

I expected this book to be a regular size board book but it is tiny - about 3 inches squared...good for the diaper bag though.

My son loved this book! I purchased it as a Christmas gift for my toddler. He loves wheels on the bus, so I thought he would like this book. He loved it, and loved the illustrations. He enjoys looking

at all the different cars in the book. It is small, so he can handle the pages by himself without a problem.

Wheels on the Bus is wonderful for emergent readers. The rhythm and repetition makes it easy for young children to follow along and start "reading" the words. This Pudgy Book version of the book is great for its small, sturdy size and its inviting water-color illustrations. In fact, there's so much to see that after you read the book, you can go back and just talk about what's going on in the pictures.

I read all the reviews before I ordered this book and it sounded great. However, when I first took it out of the box I thought I must have ordered the wrong book - could this little book be the one everyone on raved about? The answer is - YES! My 14 month old son loves it when we read (correction: sing) this book to him and asks us to do so over and over. The illustrations are full of little details that he loves to study and point out: apples rolling on the floor of the bus, dog licking the driver's face, etc. A wonderful little book!

My son (2 years) loves this book. He has learned all the motions for what happens on the bus and helps us out when we get to the right page... it often gets read two or three times a day. It is sturdy and has managed to stand up to throwing, chewing and operating as a step stool.

My 14-month-old twin grandchildren often bring this book to me and ask to have it read to them, on my lap. The simple and bright pictures, including babies, a dog, trucks, and cars, seem easy for them to identify and understand. The thick pages are easy for them to turn. They never seem to get tired of this book -- and neither do I.

I love this book. The illustrations are so beautiful and every picture has so much detail in it. Every day, my son and I follow the passengers and all the things they do till one of them gets off. Especially love the bumpy bump bump part where I actually bump my son up and down on my lap.
