A Tale Of Two Teddies

Synopsis

Travel back in time to the beginning of the twentieth century and learn the true story of how the teddy bear came to be. Two teddy bears were created at the same time one in America and one in Germany. Both claim to be the first. After each bear tells his side of the story, it will be up to you to decide: Which was the first teddy bear? This carefully researched and enchantingly illustrated children's storybook allows each of the candidates for First Teddy Bear to tell his tale. The characters, through witty banter and debate, reveal the conflicting accounts behind the 1903 creation of this beloved plaything.

Customer Reviews

As the grandmother of four granddaughters, ages 7 through 13, it was hard to find one book, to give as a holiday present, that all would enjoy. Well, I found it in The Tale of Two Teddies. Each of the girls read the book (the youngest with a bit of Gramma's help), and adored it. They love the illustrations, and the gentle personalities of the two different Teddy Bears -- one American, one German. They enjoyed learning the history of the bears, and found renewed interest in their own beloved Teddy bears. Lovely book for anyone who loves a Teddy Bear.
