ISBN-10: 1519704062

ISBN-13: 978-1519704061

Product Dimensions: 6 x 0.2 x 9 inches

Shipping Weight: 5.6 ounces (View shipping rates and policies)

Average Customer Review: 3.4 out of 5 starsÂ Â See all reviewsÂ (55 customer reviews)

Best Sellers Rank: #21,429 in Books (See Top 100 in Books) #31 inÂ Books > Children's Books > Activities, Crafts & Games > Games > Video & Electronic

## Customer Reviews

I just got this in the mail and was like wtf is this. The table of contents sounds good and enticing, but caution this is not what it seems. My 2nd grade niece could have picked better distorted black and white images from the internet as this book has and organized more helpful statements to describe building tips in minecraft than this book. This book's title in no way justifies the scam involved here. I expected a variety of house builds with layouts that were specific to that house, farming, and more. On page 68 and 69, you can see that little effort went into this book. Page 65, A Blacksmith's Forge has one sentence stating that this room can be stacked full of furnaces and act as a production room. The picture is barely visible because of the quality of the picture is so dark in black and white print. Many of the pages are filled with nothing but white space. There is tiny font with a sentence or two of nothing handy or helpful to add to your beginner knowledge of minecraft. This is just a big disappointment from a seller with access to a personal computer and printer. Do not buy!

As a big fan of this game it was not easy for me to choose which book to buy because there are so many similar here on . I didn't know most of tips from this book so I am very satisfied with this book.

Of course price was is fair.

This is such a disappointment and rip off! It's like someone threw some black and white pages together and out a fake official Minecraft cover on. What a disappointment for my son, this is going back right away!

This is a great guide for building nice looking houses in MinecraftPros-Explains directions in a fun way-Includes Bonus Stories-Has good looking housesWorks on pocket edition as wellCons-A little confusing with the directions-Only a few deignsBut really a great bookVery interesting and adventurous Minecraft.

This book is a mess. Inside the pages are not colored to show the minecraft game, they are photocopied. Some pages were normal sized and some pages were 1/4 of the size. The content was not what I expected. Not a good book at all. The people that gave this a 4 or 5 star must must have a different book and or work for the publisher. There is no way that this book is helpful, descriptive, detailed, and great. An adult can't even make out this book, can't imagine how a kid can!

This great minecraft creative handbook is all you need in order to know all the themes and rules of the famous game. Born in the decade of 1980 I still remember myself as a kid to play minecraft and never had such a handbook to have accumulated all the things I need to know in order to pass all the stages without any hassle. A must have for all gamers.

This is a great product for your kids it teaches them how to navigate mine craft, Also it teaches them how to build many creative things such as houses, castle's and village's. It even shows you how to build a house underwater. This is a must buy for your kids as it will teach them how to be a better player in minecraft creative mode.

Nice one i like this one very much its worth for the money we buy i suggest every one to buy this one Its an awesome product i must say..I was searching this type of product for so many days but finally made the right decision by buying it..It's totally worth to buy
