Reviewed by Becca Lawler for Reader Views (8/06) I LOVE this box. I love those 'I spy' books, but these are way better! This book is so colorful and pretty. There are lots of really cool pictures. My mom let me go online and get the check charts. They were so neat. But I like to look them up all by myself. One of my favorites was the first one, 'Colors'. The purple dragons were so pretty. My mom even helped me some. We had a great time. The 'Letters' one was kind of hard, but I got them all. I take this book with me whenever we got on long trips, like to my Meme's house. It makes the trip not so long. I can't wait to take this book to school for show and tell. I bet all my friends will love it as much as I do. Book received free of charge

great illustrations .....not sure of content . Need to try out on some different ages of kids. It was too easy for a 6 year old I showed it to. She was bored

I could read this book over and over as there is so much to search for in this book. It's fantastic. I bought this book because I was lucky enough to find another book by the same author at a rummage sale and fell in love with that one. My three year old son has such a great time searching for things. What used to be a fifteen minute bedtime story routine can last almost an hour now. Oops...
