Customer Reviews

I have a 9 year old grandson and a 3 year old granddaughter who love these "look and find books". They have memorized the other ones we had, and I couldn't find these types of books locally. The Shrek book is really cute and more appropriate for my granddaughter. I would certainly recommend this book for any younger child who also loves the Shrek movies.

The front cover makes it appear that the inside is going to be full of computer animated pictures of the actual characters from the movie, but the inside is very generic looking characters. My 3 yr. old daughter did not even care to look at it.

Many hours of reading with grandchildren
