Science Magic Tricks (Dover Children's Science Books)

Synopsis

Over 50 safe tricks — all based on scientific principles. Grade-schoolers using common, everyday items will soon be performing such mystifying feats as making squares and lines disappear, creating a magical doorway out of paper, cutting glass with scissors, inserting a pin in a balloon without popping it, and much more.

Customer Reviews

My son who is 13 years old is a science fanatic and really enjoyed this book. He pushed all his expensive gifts aside, including a new electric guitar, to flip through the book and examine some of the science equations. It was greatly priced and will provide many hours of fun...I'm quite sure.

i love the idea of the magic and science combo. it is a gift for a pre-teen male family member who is very in to magic tricks. should be a blast!

I like the book. It was in good shape. I am a happy customer and will buy again.
