Customer Reviews

Hello I'm an autistic adult. This is my review on The Shakespeare Stealer series (3 books in one Hardback cover). I bought this about a month or two ago on after reading the first book in the series That I had bought from Half Price Book Store. Right now I'm in the second book still reading. I'll tell you this much if your not into shakespeare or big on much of his work this book will open your eyes into really looking into some of his work & plays. The book is just that fascinating. When ever Gary Blackwood wrote this he did an excellent job. I like Widge in the story he's cool oh & he finally found out who his parents are in the second book but I'm not going to tell there names you have to read the book. All I can say is if they ever make any more ds games since I also like to play video games besides reading books I hope the turn this into a ds game. This book really is a must read for any reinassance fans like me. Happy, Book Hunting everyone! P.S. Please read this book you do not know what your missing out on!

My 13 year old daughter really enjoyed reading the book. She would stop reading and narrate back to me everything that was happening!

I really have enjoyed reading the Shakespeare series. Very authentic. I teach high school and I think my students will enjoy it.

As a theatre educator, I enjoyed this historical fiction. Widge's adventures through Shakespeare's England are fantastic. A great read for all ages.
