I remember having a ton of little golden books as a child and now can share that with my children. Nicely made book that is very easy to follow and the pictures were very colorful. My son really likes Mater and his adventures. Great book in which we will enjoy reading for years to come.

This book is advertised on other LGBs and my son kept asking for Mater Ghost. So of course I had to buy it. It's such a cute story! We love Cars and Mater and all of our other Cars books go along with the movies so I was interested to see what story they came up with. I have to say, I probably liked the story just as much as my son did.

Mater loves to play practical jokes on the cars in Radiator Springs, but what will happen when the other cars decided to play a joke on Mater? Mater and the Ghost Light is a silly story that will captivate any Cars fan. My toddler asks to read it over and over again.

My son, 3 1/2, is a HUGE Mater fan but this book scared/ bothered him a little. He made the

comment that Mater looks scared in every picture and he's right. He found it disturbing. This might just be my child, however.

A Little Golden Book full of your child's favorite Cars characters. This story focuses mainly on Mater, but there are guest appearances by all of the Cars favorites. This is great for snuggling up with your munchkin for a nice story time. The words are probably a little bit too much for a young child or toddler to read on their own, but it's great fun to listen to.

Love the golden books series. Pixar's Cars come in the golden book series which is amazing for kids and adults. The illustrations are classic golden style, neat with the story below. A great choice for beginning readers or those who love to listen!

I can now read this book by heart. Those of you that are parents of toddlers know this is the mark of a good book. The story is nice and short, there's lots of fun sounds you can make with your little one and it's a nice story to remind your children that not everything scary is real.

This was a requested present for my 5 year old grandson. He was excited and enjoyed reading it. I haven't bought a Golden book in years, glad to see they are still the great quality and value that they were when my children, and I were growing up.
