Age Range: 8 - 10 years

Grade Level: 3 - 5

Customer Reviews

It's a stretch to call this a "book" because it's so small and flimsy that it's more like a brochure. I don't think it's worth the price - it looks like something that would be free at a museum.

My four and a half year old grandson was delighted with this book. It's hard to find factual books about bridges - about which he had expressed interest. This fills the bill!

Very good book. Amazing pictures and info.

Beautiful book -- my 7 year old boy is fascinated with bridges... this book was perfect.

Twenty dollars for a 32-page book that a first-grader would find very light on information. A rip-off.

Save your money.

Lovely pictures and informative. Great for kids. My grandson loves the pictures

This is a simply written book for kids. My son and I have enjoyed the pictures.
