Customer Reviews

Really great book on how to get started with hand lettering. Just what I was looking for. Practice pages and lots of examples make this a great buy!

I love Dawn Nicole's work! Even though this is published by a children's book publisher, it is definitely not a "Children's Book". :) I would highly recommend this book for anyone looking to improve their creative side!

I bought this book for my daughter and it is fantastic. She takes you through the different lettering

styles and encourages practice of each in a manageable way. My favorite part of the book are the projects near the end that put a fun "real life" client spin that encourages you to design creatively in real world-type situations. I recommend her social networking sites as well as they have a lot of information for those interested in learning hand lettering.

Loved the book! Excellent beginner book for brush lettering. Highly recommend.

Purchased for 12 year old and she is enjoying greatly. The instructions are easy to understand and the projects are very cute and contemporary. This is a great gift for a teen or preteen.

A great book for a gift or personal inspiration. Very beautiful!

very helpful for more ideas!
