Customer Reviews

Even though I have already drawn good pictures of the Nemo characters, I bought this book to see if it would help me improve, and I also hoped it would assist my friends and family (who are a bit artistically challenged, yet still love Nemo). "How to Draw Finding Nemo" is a very cleverly written book, from Marlin's point of view, and he describes each character (as well as the entire movie plot) quite perfectly. The first day I got this book (today), I drew and colored 24 good pictures of the Nemo characters. Each one is illustrated in detail and various poses, with helpful tips and hints. The book includes Nemo, Marlin, Dory, the sharks, Nemo's school friend trio, and the whole Tank Gang. It's only missing the turtles, for some reason. Anyway, it is a very nice drawing book. Like any "how to draw" book, you may find it a lot easier to draw without all those annoying 'guidelines' that you need to erase. But unlike most "how to draw" books, this one makes it EASY to follow each step individually and come out with a great drawing! Hey, I'm 16 and use it...this is NOT just for eight year olds! My recommendations when using this book? First of all, USE IT. Don't just buy it, flip through, and never draw any of the pictures. It shows you how to do so quite simply. I know it's

cheap. But still, use the thing! For instance, you may find Sheldon, as I did, easier to draw from his final result (all those little lines on his head are complex.) For another, they lie only once in this book. Jacques, it says, is half the size of Nemo? No, that's impossible. Jacques MUST BE BIGGER than Nemo (just a bit, as in the film), or he would also be able to fit inside the filter. More examples you wish? I shall gladly oblige! Gill is a lot of fun to draw.
