Britney Spears: An Unauthorized Biography

Synopsis

Smart, spunky, and pretty, Britney Spears is a teenage singing sensation. People called "a mix of Debbie Gibson's wholesomeness and Alanis Morissette's grit." Her *Baby One More Time* album hit #1 on the Billboard chart right out of the starting gate. It may seem like success came overnight for this brown-eyed beauty, but she's been working at it since childhood: before joining The Mickey Mouse Club at 11, Britney was acting in commercials and in an Off-Broadway show. And at 15, the singing bug bit-and there was no stopping Britney. But behind the fame, Britney's just an ordinary teen-she loves shopping, going to the beach, eating pizza, and talking about boys. She's close to her family and is no rush to grow up. Find out all about Britney-from her career plans to her personal life, how she gets her cool look, who spends her time with, what it was like on the road opening for 'N Sync and much, much more. With eight pages of awesome photos!

Customer Reviews

I highly recommend this book because it gives you some very cool information about Brit and things people never new about her. It is a really good book with some really cool pictures, but, when they say it has 160 pages it actually has 149-150. That's ok. It is still a must have book for a very big Britney fan like me. Order it now, It's the best!

This is probably the oddest thing - but I am a grown man, and a newlywed. Despite that, I am terribly fond of Britney. I love everything she does. Everything she says. Just everything about her.

This book captures everything there is to love about my Britney. Just reading this book makes me want to hug her. One of the things I did is I bought two copies. One just to read and to have, the other so I could make a collage for my office. I may even tell my wife how much I like this book and get one to make a collage at home. This is my favorite book of all time. If I could give it 6 stars I would.

Hi, I am a big Britney Spears. I bought the book the other day and enjoyed reading it! If you are a Britney fan, this is a MUST HAVE! It even shows websites about her and tells the meaning of all her songs. This is the best book you'll ever read.

This was a really good book! It's got cool colour photos and quite a bit of information about Britney! It was hard to put it down! It talks about the Mickey Mouse Club, touring with nsync, and it even talks a little bit about the Mickey Mouse Club history. It even talks about Britney's brother and sister. It's full of lots of information about Britney and it even has a timeline and trivia questions and links to Britney sites and lots more! I recommend it for any Britney fan of any age! All ages love her!

Yo! This book had me reading for ages! I love this book it's really good! But in some stages it started to get a bit boring because it's in the past. But if you're a Britney lover it's a must have!

Well actually it's not one of her best books, but I found it quite interesting. It has 8 pages of cool photos! I bought the book the other day at the shops, it was expensive for just some recycled paper. But if you're a fan of Britney you should get it!

I read this book and I must say it's great. It's easy to read especially for someone who doesn't speak English very well. But inside the book there are ONLY 8 small pictures. And the book is printed on recycled paper what I never saw before.

Anything about Britney Spears must be good. So it must be awesome
