QuestMaster: Mysterious Maze Adventures

Synopsis

This is not your typical maze book! Welcome a new series that mixes superbly designed mazes and storytelling for an extra dash of excitement and challenge. Embark on five separate quests--including an "Arctic Rescue" set in 1885 and a current day search for an albino jungle snake--each featuring seven mazes that build upon each other. You must complete them in order, and if you don't finish them all, you haven't accomplished your mission. Plus, all the mazes have specific rules--such as never go down the same path more than once--as well as dangers to avoid and items to gather. Along the way, solvers earn points, which get totaled at the end. So grab a pencil...and good luck!

Customer Reviews

My son (8 yrs. old) and husband have had a blast with this book! It's divided into themes, and each maze in the theme builds on the one before it, which is pretty brilliant. MUCH time and detail invested in each maze, and so much more imaginative than others I've seen (not like the other "Help Fido find his bowl of kibbles" maze books!). Really nice artwork, too. I've bought several to keep on hand for gifts for nephews, my son's friends, etc., and the parents seem to appreciate that it'll exercise their kid's brain (whether the kid knows it or not!) and stretch their imagination a bit. I've also loved that my husband and son have enjoyed working on them together, and without my husband having to lower his I.Q.! He actually enjoys them!
