Customer Reviews

We purchased this book from , but I didn't realize it was from a 'seller' and not directly from .The book itself is for a 6 ish to 11 ish child. It is really for the child to fill out, not the adult. It's only a one year book. It contains activities and stickers. There are pages for the child to fill out "About Me" style. Every page has all the Disney you could possibly want.I originally intended this book to be a gift. It arrived with an '80' in black sharpie on the cover where you see the blue ball in the upper right hand corner of the cover. The first "About Me" page was already filled in by a young child with scribbling all over. Several of the stickers were missing. The pocket holder was ripped. refunded my money immediately. There is no way I can give this as a gift, too many pages were written on.Other than that, if you can find this new, and have a Disney fan in your life, it's a cute book. It doesn't, however, contain any 'newer' Disney characters It's basically the classic characters only.
