Customer Reviews

Our 18 month old first fell in love with Raffi's "Shake My Sillies Out" from a cassette tape of a Raffi concert. He would dance and smile, whether it was Raffi or Mommy singing the tune. Now we have the pleasure of reading the book together in "sing-song" style with the wonderful illustrations and repetition my little guy recognizes and enjoys. I am a teacher, as well as a mom, and fully back all of Raffi's song based books.

This is a wonderful book for kids about getting the last-minute sillies out of them before they fall off to sleep. My daughter (4 months) is too young to understand it, but I love reading it as part of her bedtime routine and can't wait for her to understand it. (She does sit still and listen!) I also like how it is an illustrated version of one of Raffi's songs, so that when kids sing the song, they can know the words and relate to the pictures. I highly recommend this and other Raffi books and songs.

I read this book to my children when they were just little babes. I was so happy to have found the book again to give to them to have now that they are married so that when they have children they can read it to their little ones. Thank you Thank you for having this book available

This book is great to use for a rainy day (when you can't go outside) and as a gathering song for group times. It truly gets all the wiggles out.

My daughter loves "song books" and this one is particularly fun. My 3 year old and 1 year old both love it and it's a super fun way to get some extra wiggles and sillies out! I would totally buy this again!

I got this book because we loved Baby Beluga so much, so I wanted to try another Raffi book. But I didn't like this one at all. The song was so plain and hard to sing to, and didn't really line up with the pages well. My son was bored by it immediately. And there really wasn't a story to follow along to.

My kids absolutely love this book. They will actually go to bed after we read it too, rather than want another, then another book.

My sister is a principal and highly recommended this book for my grandchildren. They love to read and sing so what better gift than to have it all wrapped into one.
