## Customer Reviews

My son is in 2nd grade, and he's the perfect age for this series. We read them aloud when he was 5 and 6 and they held his attention, but they were too long for him to read independently. The entire book is spent building up to the "fight", so I wish the fight itself lasted longer than 2 pages. It's always over in the blink of an eye. I do like that they are a little open-ended. It makes for some good discussion after the book is over. If your kid likes non-fiction, I highly recommend this series.

My kids love these books n I find myself learning new things right along with them
