Audubon Wildflowers Calendar 2012

Synopsis

Gilding landscapes with their color and fragrance, wildflowers are a delight wherever they grow, from a mountain meadow dense with Indian Paintbrush and pale blue Lupine in the Paradise Valley in Mount Rainier National Park to a carpet of Mexican Gold Poppies. With a dozen portraits of North American wildflowers in their native habitats, gorgeously photographed in full color, Wildflowers is a showcase for some of nature's loveliest and most ephemeral creations.

Customer Reviews

I get this calendar every year. It's got great photos and a heavy gauge paper that holds up to humidity and doesn't curl. Love it.

This calendar is absolutely beautiful. High quality photography and each month's picture just explodes with vivid color. Really brightens up my office and makes me smile.

This calendar was beautiful and colorful. Every month was a joy to see the new scene and colorful flowers. As a "bedroom artist", I was gifted with ideas to paint. Loved it.
