Customer Reviews

This dot-to-dot book is a big hit with my 5YO son. He has trouble with pre-writing skills but this book motivates him to use his pencil correctly. Also good for number recognition. I thought at first it would be too hard for him, but the pictures really grab his attention.

I couldn't agree more with the previous reviewer. My 5 year old son was also delighted with this book. The designs are fairly easy, and space is a favorite subject. Great for airplane or other travel. We'll definitely buy more.
