Customer Reviews

I was looking for some Adult coloring books for my 86 year old father who is home bound. All I could find is flowers, weird stuff, animal, etc.. which he is not a fan of. He has always been a car man back to his teenage years! I was thrilled to find this one and the 50's car book. It has each picture in a Era setting and tells about it below. He enjoyed telling us about which ones he had. Anyone with a man

who likes to color& likes cars this is the book for you

Fabulous coloring book by excellent artist. You cannot go wrong with Dover's coloring books. Lots of detail but not too much you cannot easily color it. Book is very well bound. In fact we scan and print the pages so we can reuse the book. Highly recommend both the WWII airplanes and the American muscle cars.

The details on the images are quite small and not ideal for markers. The images are printed on both sides of the paper too - not ideal as markers bleed through. Overall it's pretty good, but probably better for pencil.

This book was bought for my 8 year old son. We are a family of car lovers and he took to it right away. I was surprised to hear him talk about Corvettes, Camaros, Mustangs and other American Muscle Cars like he has known about them for years. When I asked him how he knew about these cars he said he saw them in his coloring book. I recommend this book for anyone that enjoys American Muscle Cars. I found myself coloring right along with my son.

Wonderfully detailed drawings of cars and I especially liked the drawings including backgrounds of scenery and buildings that were likewise well drawn. I have colored this book before and liked it so well I ordered it again. Hours of delight coloring the cars and buildings.

I bought these adult coloring books for all the guys in the family this Christmas with pencils. It was a different gift. The paper is nice, one sided and I thought it cool the way the cars went from earlier years to later with scenes that showed the images of that era.

This is for anybody who loves cars! The pictures are simple yet detailed. The cars are awesome, there are Mustangs, Firebirds, Chargers, oh my how will you choose where to start! ! My 11 year old son loves cars, I can't wait to give this to him, him and his dad are going to have hours of fun coloring. Another cool thing is under the picture it gives you a little history about each car which is pretty neat. This is highly recommended, if you love cars you will highly enjoy this book!

This coloring book is great for kids and adults alike! My 3 year old son (who loves muscle cars!) looks forward to coloring a picture from it with me every day. The pictures are detailed and

attractive.
