My 14 month-old loves this book to pieces - literally! We have read and sung it so many times that it has fallen apart. Even at her young age, she repeatedly pulls this one off the shelf!

My 23-month-old absolutely adores this book. And so does her granddaddy. He remembers the song from when he was a child, and they sing through the book over and over again...she never gets tired of it, and though his voice may get hoarse after the 10th time, he loves it, too. It has been a very good bonding experience for them both.

This is a great book for all young children. The words and illustrations are very cute. I sing this with my kindergarten class every morning and they love it. It's a refreshing and fun way to sing along and learn the alphabet.

It's not easy being a little kid sometimes, but this lovely and positive book is filled with nice things to

say -- A you're adorable, B you're so beautiful Who wouldn't be cheered up? The illustrations are gentle but lively images of children playing around large letters. I am not familiar with the Kaye-Wise-Lippman song others have referred to, but the book is enjoyable anyway. Though I would rather have had a phrase for each letter of the alphabet rather than three strings (MNOP, QRST and WXYZ), I suppose that makes it fit the song. Particularly useful when your toddler or young reader is down in the dumps, this gentle reminder tells them that they are special and loved and important. If you know the tune, all the better!

If your baby has one board book, get him this one. I have "read" (sung) this book hundreds of times to my babies and I sing it and animate it in my own special way, stopping to kiss during the "K you're so kissable" and sharing a big hug at the end of the book. The babies want it over and over!!! have bought several copies of this book for shower gifts and it gives me an excuse to sing the song for moms-to-be!

I remember my grandfather singing me this song when I was a little girl. I had this book for my son when he was a toddler and wanted to find it for my niece's baby. The illustrations are so sweet and the board book is sturdy for little hands and mouths.

This is a great book. My Mom sang this song to all 10 of us, all of her grandkids and all of her great grandkids. We lost her recently. We sang this song to her while she was dying and at her funeral. I recommend you make this book/song a part of your child's life. The final line in the book needs to be added though. It should read "I love you alphabetically." Enjoy!

I remember my mom singing "A, You're Adorable" to us when we were young. I even remember my dad singing it to us, though he'd never admit to it if you asked him today. Anyway, I was thrilled when I found that someone actually illustrated a book with the words to this sweet song! My daughter loves to hear me sing it to her, and the sound of it seems to calm her down. We often read/sing it right before bed as a lullaby. I would recommend this book to anyone... and if you don't know the tune, just make one up; your child will surely love it anyway. (My mom is tickled to know that I remember her warbling this song to us!)
