The Story Of Harley-Davidson (Robbie Readers) (Robbie Reader Contemporary Biographies)

Synopsis

Harley-Davidson motorcycles are world-famous. Big and powerful, they are loved by riders around the world. It seems as though they've been around forever. But at the beginning of the twentieth century, there were no motorcycles. Two young men, Arthur Harley and William Davidson, decided to start a company to build them. But they had almost no money. Their first factory was a shed that was so small and light four men could pick it up and move it. How did they turn that tiny beginning into a world-famous company? How did the Harley-Davidson motorcycle become so important? It's a fascinating story.
