cute little dover book! fun for my grandson to play with and easy on the pocketbook. I can't believe these ship with prime! i keep several dover little books on hand so when I see my favorite little guys they always have a fun activity to do. this one is good, obviously it has activities about robots. they love robots so it was a good choice for me to get for them.

Excellent value for the price. It has 52 pages of different activities and 12 pages of solutions in the end. All pages are black and white so you can also color most of them.The size of the book is 4.25" X 5.75".

Lots of activities packed into a tiny pocket size book. Probably best for early elementary school age

kids? Very fun!

No stickers, but great little coloring and activity book. These are small (4 or 5 inches) so don't think you're getting a full-size coloring book. Great for kids interested in robots!

A bit on the small size but it kept my kids entertained. Lots of activities. Good for long trips or just to keep the kids entertained for a while.

Cute! I thought it would be bigger (I didn't read the dimensions), but this makes it easy to travel with.

I was really small and tiny. Thought it was bigger.
