Same as any other calendar. No real information on planting seasons or weather information. It came with an advert inside. Yeah really. Nothing special. Nothing to help with gardening or growing veggies, just a plain old calendar, not what i was expecting at all. They can put ads inside but not the information your looking for. The only planting information you'll get is 'May 25: Memorial day (observed) Plant warm-seasoned vegetables, such as peppers and tomatoes, when daytime temperatures exceed 50F'. Will never buy again for any year ever.

I thought there would be more information on planting each month....

I have been buying the Old Farmer's Almanac Gardening Calendar for many years. I love the artwork and the tidbits of information that highlight each month. The moon phases and major holidays are noted and the daily squares are big enough to note appointments or birthdays, etc. I also like it that there is a miniature of the both the preceding and following months on each month's page.

I love this calendar and the weather calendar. I cannot choose between the two, so I buy both. I also buy one of the Weather Calendars for my nephew who loves to go to the midwest and storm chase. He is very good at it and I have learned there is a method to his madness. I would think any person who gardens or enjoys the weather patterns would learn lots of great wisdom from these great calendars. I also get both of us an Almanac. Very good reading and great to use with the weather channels on the internet. I save them from year to year just to compare the weather. I learned about a harvest moon, many great stories from these calendars. Make great gifts and the pictures are beautiful. Always good service and delivery on time

Lovely calendar, very relaxing to look at. I enjoy the interesting trivia and pictures, and as I enjoy gazing at the moon, I like the notes about what kind of full moon it is each month (ex Full Strawberry Moon). As with the 2014 calendar, I plan to use this too at work to keep track of the days and months.

Love my Old Farmer's Almanac calendar. I get one every year. It's full of beautiful pictures every month and various pieces of information, quotes, and gardening information on every month of the year. Lots of room on calendar for writing down appointments or other information.

This is a pretty calendar, but I was expecting it to have planting dates as part of the format. It's an attractive calendar with pictures of plants. But there are prettier floral calendars, so I won't buy one of these next year.

I got this for my wife and she loves it, so that makes me happy.
