Olivia's ABC

Synopsis

Everyone's favorite pig takes on the ABCs in this adorable board book that explores the alphabet with Olivia's and Caldecott Honoree Ian Falconer's signature creativity. A is for accessories, B is for books, and O is for...OLIVIA, of course! Come along from A to Z in this unique and raucous romp through the alphabet as only Olivia could describe it. A perfect gift for any fan of the precocious pig, this sturdy board book is ideal for the youngest Olivia readers and the littlest hands (or hoofs).

Customer Reviews

Pros:- Overall a fun book. The aesthetic of these books is delightfully simple. They don't use unnecessary background, so it's easy for kids to focus on the subject.- Being a board book makes it durable for young (that is, destructive) readers like my two-year-old. I do have a couple of criticisms, though:- My main complaint about this book is that some of the words, such as "gingerbread" for "G", don't correspond to the more standard letter sound. Consequently, it's not well-suited for teaching kids the phonetic alphabet, which is the main reason that I got it.- I was a little disappointed at first to notice that many of the images are recycled from other Olivia books. But this could actually be a perk. If your kids are big Olivia fans like mine are, they could enjoy spotting familiar images and linking them back to the book that they came from.

I really cute book and the illustrations are amazing and makes learning the abc's really fun. I bought it for my daughter and this book is a little more on the girly side. Really great price on as well.

This book is really cute. My daughter loved Olivia so she of course loved this. The alphabet goes through things that are practical, and recognizeable, but some of the words are a little bit advanced - which is okay with me.

~~This is an Good learning tool ~~My order arrived in good time & packaged well! this & adorable alaphabet book, my niece's name is Olivia & she loves reading & learning about herself (she thinks it's all about her lol)!!she really loves to read & Learn her letters , such an colorful book!! Very educational !! She can't get enough of reading this book, I have purchased several Olivia books in the past & have been very happy w/them. tku. Trish. :o}

My one-year old granddaughter has discovered Olivia and adores her! I bought several Olivia books for her and an Olivia plush toy, and she was overjoyed! Her mom and I are constantly saying the alphabet to her so she will be familiar with it, and the Olivia ABC book is her firm favorite.

Nice ABC book but not for young children. Olivia's vocabulary includes "accessories", "chandelier". "maracas" and "xylophone". These are all words toddlers will have a tough time wrapping their tongues around! On the other hand, older children and those who love this famous white pig will enjoy paging through Olivia's board book. Book provided by publisher.

My nieces are gaga over Olivia and love her narrative stories. This book is really just a list of named objects from other Olivia stories, and it seemed to bore them. I'm hoping for more Olivia narratives in board book format soon!

Love this book. It's a quick read as it is an alphabet book but the size and quality for a board book is exceptional. My daughter loves Olivia.
