Eyelike Stickers: Baby Animals

Synopsis

They're reusable! The sticker book series that kids love has a new addition: EyeLike Stickers: Baby Animals. Each book contains 400 full-color stickers that are amazingly detailed and lifelike in quality and are designed to be stuck on, peeled off, and stuck on again without tearing or losing their stick. The books inside covers are glossy illustrated backgrounds on which kids can create lively and original sticker scenes and then change them whenever they like. Packed with roly-poly pandas, round little bunnies, sweet puppies, fuzzy owlets, and pink piglets, Baby Animals is pure, unadulterated cuteness on every page.

Customer Reviews

At least 50% of the stickers in this book have not been cut and will not come off the page. We saved it as a birthday gift for my daughter and are, unfortunately, outside the time frame for return as it is a constant source of frustration. Sorry, kid.

I am an elementary school nurse and I use these to cheer up the little ones. They have plenty of stick and stand up to a few reapplications and playing with them. Lots of choices and there are a couple of each animal so there is no fighting over them!

I love these peel and stick stickers. I use them to decorate my planners and personal journals. There is a huge amount of them and a wide variety. They look like real photographs of pets...that's why I like them so much!

bought these stickers to give to our pediatric patients at work and I ended up keeping some for myself because they are so adorable. They are quite big and very easy to peel the sticker backing off. The only thing I didn't like is there are a lot of repeats on each page which is ok because they are all cute, but there are so many cute animals in all colors I felt like they could have given more variety. Still love them!

Don't get me wrong, I absolutely love this brand of stickers. I rated it so low because this particular book came with at least five pages where the stickers would not come off the page. I have never had this problem when I have purchased the book in the store.

So cute! My 23 month old is obsessed with stickers, and animals, so she gets such a kick out of these. She likes to just put them all over herself (and me....) so we don't use the reusable pages, so I can't really speak to how reusable they are if you just put them on those pages. A few of them have ripped in the process of taking them off the page - definitely a little tricky for chubby little toddler fingers. Great product overall and great price for the number of stickers.

This is okay. I was expecting the reusable stickers to be more like Colorforms, or the Melissa and doug reusables. These are just regular stickers with a couple of backgrounds you can stick them on. They are removable but not really the kind you can keep using over and over. I did like the variety of stickers provided.

Lovely stickers and LOTS of them. Anyone with a toddler in the house knows that quantity at this age is just as important as quality. We use them to tell stories and to create thematic drawing projects - panda habitat, doggie den, etc. My 2.5 year old likes to peel, stick and then peel again.
