The Titanic Coloring Book (Dover History Coloring Book)

Synopsis

On the night of April 14, 1912, while passengers aboard the Titanic were enjoying the luxurious accommodations of the White Star fleet's newest ocean liner, the ship struck an iceberg off the coast of Newfoundland. Described as "unsinkable," the largest and most elegant ocean vessel of the period quickly sank in the early morning hours on April 15 with the loss of more than 1,500 lives. This exciting coloring book dramatically re-creates events leading up to and including the monumental tragedy. Twenty-nine realistic drawings, accompanied by fact-filled captions, depict the Titanic docked in Southampton, England; the ship's captain and officers on the bridge; passengers dining and strolling on deck; the ship striking the iceberg; survivors huddled in lifeboats; and more.

You may have seen my reviews of the Titanic toy for the tub - naturally, I had to have the coloring book too! (You can't imagine how SHOCKED I was to find a coloring book about the Titanic?!?!). My 6 year old is TOTALLY OBSESSED with the history of the Titanic. He can't get enough! We got this coloring book for Christmas and he was astounded! I think he thinks it was custom made for him since we never find anything "Titanic" at Toys R Us or any other "toy store". I will tell you that it does not "sugar coat" the events of that tragic night. If your child reads well (and mine does), then you may want to consider how much he/she is ready to know about the events of that night. Its a very

historic & detailed narration of the event. If you're a teacher and you are teaching about the Titanic, this is a great tool. My son LOVES it and I highly recommend it for the young Titanic enthusiasts out there, but you may want to read through it first and be your own judge.

My 5-year-old son is infatuated with the Titanic! This was the perfect and age-appropriate gift for him. He had the whole book colored in about three days, but I must admit, I colored some with him - and enjoyed it! The illustrations are superb and the text is also good! Chock-full of interesting facts.

Titanic coloring book is great for kids. The book is great because the wonderful pages of art are masterpieces when you color them, there also great for tracing too or helping you draw your own titanic picture. The book i say is for all ages,yes including you grandpa. THE BOOK IS JUST FUN!!!!!!

I bought this book for my mother at christmas and she loves it. It would be a great gift to any one who is a fan of titanic. the pictures are well drawn and cover many aspects of the ship. My only negative comment would be that it is not a book for young children. the pictures in the back of the book while they do portray the disaster well it is a little to real. You have the ability to color bodies falling off the boat as well as dead bodies floating in the water. aslo in one picture you have the chance to color a man clining to a life boat floating in the water. I would getthis book again but would not suggest you get it for any one under the age of 12.

My seven year old son is obsessed with the Titanic. He loves everything about it and devours books and movies about the ship. He also loves to color and I was looking for a unique coloring book for him. I love this coloring book! The drawings on each page depict different features and the story of the Titanic. I love that my son can read the paragraphs at the bottom of each page and learn something while coloring. The pages are made of a good quality paper. My son used crayola markers on and they did not bleed through to the other pages. The drawings in the book have plenty of fine details to them. This coloring book is great for kids and adults who love the history of the titanic. I would definitely recommend this coloring book! I am so glad this product is on the market for Titanic lovers.

Our grandson is going through a "Titanic" phase and want to read and learn everything to do with the "Titanic". This book is informative as well as a coloring book. I learned a few things while

reading it with him R DeVore

My son is really into Titanic and we both had a great time coloring all of the beautiful pictures in this book! This to me is a MUST BUY if you have a little one who loves Titanic. Heck, as an adult I love this.

Dear Anybook, I am extremely please with the book as I've been. Involved with Titanic for a very long time. This is something additional to my humble collection that will be handed down to my grandchildren, when the time comes. Your collection of stock on hand was noted. If you have a website, I would appreciate it. In addition, or any other websites that may be explored. Who knows? Maybe you might have something that would be up for consideration! Thanks,
