Age Range: 3 - 5 years

Grade Level: Preschool - Kindergarten

Customer Reviews

The pro is that my daughter loved the book. The best Christmas gift in the bunch actually. The con is that it fell apart within days of use. Beloved or shoddy construction? Decide for yourself! If your kids love octonauts this is definitely a great book but I'm battling tears right now over its demise.

My 3-year-old plays with this for hours at a time, using the stickers like figurines and making up Octonauts stories. I first gave it to her on a plane ride to entertain her, and it was great. Now, a few months later, she has played with it so much that the stickers aren't sticky anymore. I wish they sold the stickers separately so I could buy replacements. Our book has held up well. (It sounds like other people had problems with their pages falling out.)

My kids love the Octonauts. This is a cute idea - the kids get to add stickers to complete the scene on each page of the story. The stickers are labeled with the page number they go on to help the

kiddos. My only complaint is that each page includes a line like "Now add stickers to show Peso helping the creatures." If you are using it as a story book later, this kind of takes away from the narrative flow. But, still we liked it.

My 3 year old loved this! Love anything with the octonauts and stickers!

My 3-1/2 year old grandson loved this sticker book. Gave lots of information about the sea creatures too!

Fine, a little short but a good diversion for Octonauts enthusiasts.

My son loves the Octonauts and we had a really long road trip so we bought this for him. It was a HUGE hit!

The book is perfect for my 4 year old son. My 6 year old also enjoys the activities as well!
