Customer Reviews

The Egyptian Tomb, First Discovery book we received was listed in New condition...BUT it was missing the vital piece that makes this a "first discovery" book. The flashlight page in the book was ripped out, therefore; no flashlight came with the book. My son and I were more than a little disappointed since it was sold as a new book...unless I just didn't see that the flashlight would be missing somewhere in the description. So lesson learned...make sure to check with the seller to make sure book is in complete condition.

This is a cute little book for a young child. Like 8-10 yrs. in that range. It's very basic. But it's beautiful and a nice little book. It came in EXCELLENT CONDITION.

I love, love, love these books. I wish they were easier to find and they had more selections to

choose from. Every kid I've showed it to falls in love.

A clever visual slight of hand makes this a fun book for children and adults. I couldn't get it away from my six year old long enough to really explore all the contents.
