Customer Reviews

We bought this book for our 3 year old son. He has a large collection of books with pictures of construction equipment. This book has wonderful descriptions and additional information. It was a huge hit at our house.

I purchased this book for my grandson who LOVES construction vehicles, tractors, etc. This was a used book but was in good shape. The price and shipping was very reasonable. My grandson is going to learn so much from this book!

Fun and informative book for our seven year old.
